

Coding & Cocktails Subdomain Refresh

Feature Requests 9/1/23

Good afternoon, Cocktails Team! I hope it's an enjoyable Friday for you. 😊 I've been given permission to redesign and refresh the Cocktails subdomain site. What would be some of your feature requests and recommended modifications? I've started a Figma design with some accessibility updates but am in the wire framing stage for the UX. 🍷

Amy Norris (she/her) 🍷 2:23 PM

Definitely need an easy way to get to the eventbrite for signups and an easy way to sign up for both event emails AND mentor emails (with a clear distinction of what each is for). Those are the things we get asked for the most

2:24

If there's an easy way for people to request access to slack that'd be cool too, as long as we don't end up get spammed

[Mentor] Gabi Dombrowski (She/Her) 🍷 4:24 PM

I'd want a `/mentors` route with that specific signup Amy mentioned..

And maybe there's an easy way for us to list the events by requesting them from eventbrite or something, not sure.. That way we wouldn't have to keep updating the list of upcoming events

4:26

Also, Meg (a prior mentor who's stepped in for me during events before) mentioned she is working on a school project where she might have some assets/illustrations she could send our way that might fit somewhere on the site

[Mentor] Jessica Kincaid (she/her) 🍷 7:08 PM

Great input! Thank you.

Nessa 🍷 7:35 PM

A section about past sessions might be neat so that people might see what types of topics we cover
